## INSIDE THE TEMPLE

Roman art is the art created by the ancient Romans between 509 BC and 476, when the last Western Roman emperor was deposed. For over a thousand years, the Romans produced mosaics, paintings, statues, frescoes, constructed numerous buildings, wrote plays, and produced crafts in metal, wood, and glass, leaving an important legacy for us.

Roman art was influenced by the art produced by earlier peoples, such as the Greeks and Etruscans, and by contemporaries, such as the Carthaginians and Franks.

Perfil de Rodapé Invertido para Aplicações Lineares Design funcional e versátil, desenvolvido para integrar iluminação linear de forma elegante ao rodapé, criando um efeito de luz contínuo e sem interrupções. Sua construção invertida permite um encaixe perfeito na base da parede, oferecendo acabamento limpo e discreto, enquanto direciona a luz de maneira uniforme para criar ambientação aconchegante ou destacar detalhes arquitetônicos.

Functional and versatile design, developed to elegantly integrate linear lighting into the baseboard, creating a continuous and uninterrupted light effect. Its inverted construction allows for a perfect fit at the base of the wall, providing a clean and discreet finish while directing light evenly to create a cozy atmosphere or highlight architectural details.
